

# Custom Edge Marble & Granite, LLC.

Countertop Measurement, Made Easy!

**Follow these steps to get an estimate!**

**Step 1:** Locate a pencil, measuring tape & ruler

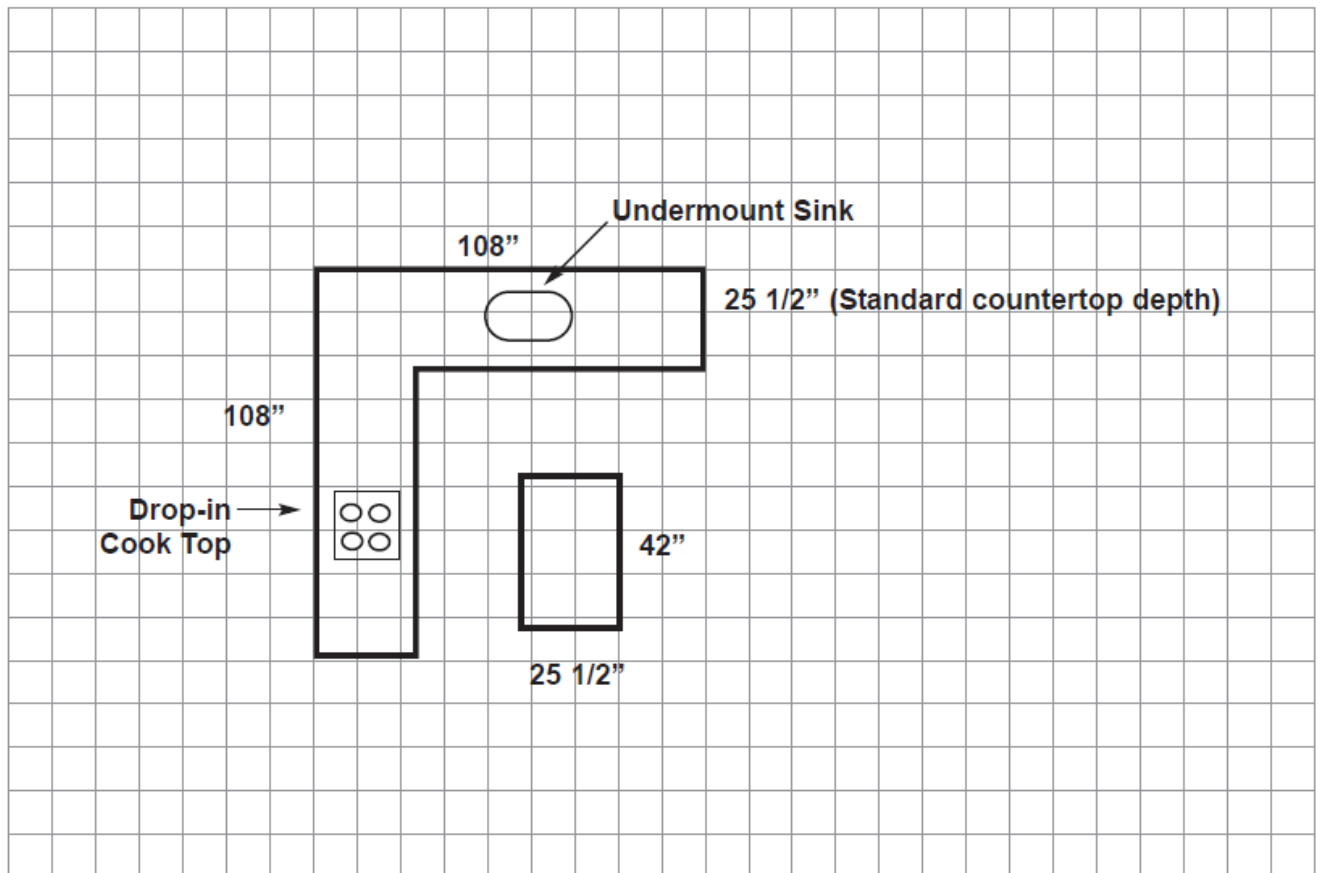

**Step 2:** Using the space below, roughly draw the shape of your countertop space.

**Step 3:** Using your tape measure, measure in inches the dimensions of all the countertop space you would like surfaced with natural or engineered stone. Put the measurement on your rough drawing as you go. **Please indicate the approximate location of any required cut-outs for undermount or drop-in sinks, drop-in cooktops, etc. (see page 2 for example.) If you would like a backsplash, please indicate where you would like it by drawing a dotted line along the length of the countertop.**

**Step 4:** For an ESTIMATE, fax your drawing to Custom Edge and we would be happy to quote your project.

**The final purchase price of your counter top will be determined after a complete on-site measurement of your countertop space.**

**Example of countertop space drawing and measurement.**

Please Indicate desired counter top thickness:  
□2cm = 3/4" □3cm = 1 1/8"
